

Data Consultant – Business Solutions Team

We are looking for a highly motivated and detail-focused **Data Consultant** to join our **Business Solutions Team**. This is an exciting opportunity for someone who enjoys turning complex data into meaningful insight, working with modern Microsoft technologies and helping clients improve the way they manage, integrate and report on their data.

In this role you will design and deliver data pipelines, reporting solutions and analytics using tools such as SQL Server, SSIS, SSRS, Microsoft Fabric and Power BI. You will work closely with clients and colleagues to understand requirements, solve problems, support existing systems and identify opportunities to add real value through better use of data.

The ideal candidate will bring strong technical, analytical and communication skills, practical experience in data engineering or data analysis and have a positive, continuous improvement mindset. In addition, have strong organisational and project management capabilities, with the ability to balance multiple priorities and deadlines, as well as a strong command of statistical analysis and data storytelling techniques. Excellent knowledge or best practice data management, governance, security and compliance is also a required.

Qualifications include:

- SQL Server and T-SQL development, including data modelling and querying of large data sets
- SQL Server Integration Services (SSIS)
- SQL Server Reporting Services (SSRS)
- Microsoft Fabric
- Power BI (dashboard design, DAX, semantic modelling)
- Excel

Desirable additional experience in one or more of:

- DataSync Studio
- Azure Synapse Analytics / Azure Data Factory
- Python and associated data libraries
- Microsoft data certifications (e.g. DP-203 Azure Data Engineer Associate, DP-900 Azure Data Fundamentals are desirable)
- Degree in Data Science, Business Analytics, Computer Science, Information Technology or a related field and/or proven experience in a similar role as a Data Engineer, Data Analyst or equivalent

How do I learn more?

If this opportunity excites you and you're customer-focused, technically curious and keen to develop within a supportive consultancy environment we would love to hear from you.
